MEMORANDUM FOR: Director of Central Intelligence

**SUBJECT: Comments on the Report of the Committee
on World Economic Practices**

1. This memorandum is for information only and is submitted in response to your request of 2 March 1959.

2. We have reviewed the recent report of the Committee on World Economic Practices, and as the attached comments show, believe it to be a most useful contribution. The adoption of many of the Committee's proposals should materially assist in countering the Sino-Soviet Bloc economic offensive.
